

April 28 (Thursday) in Olin 264:

- 9:30 am Carrie Nugent, "Computer Simulation of Foraging Ants"
- 10:00 am Buck Thome, "Exploring Classical Scattering with Numerical Methods"

May 3 (Tuesday) in Olin 264:

- 9:30 am Mark Veillette, "Two Lane Traffic Model With a Lane Closing"
- **10:00 am** Rob Rhoades, "Generalizing a Hard Problem in Number Theory to a Hard Problem in ComplexAnalysis"
- **10:25 am** Wes Baker, "Emergence of Preferred Protein Sequences in a Simple Model of Protein Folding"

These presentations are part of CAPS 424–02: Computer Simulations in Physics
