

Homework Assignment #4

(as email due: **Thursday, February 3, 8:00 am**)

Please emails (kvollmay@bucknell.edu) only as text (no word doc., pdf-file, etc.)

- 1.** Finish today's in-class work 9d. As answer to this question email to me the name of your program for 9d. and copy the program into your share.dir directory and make the program readable. I will check your program, so please let me know as soon as possible, once you finished your program.
- 2.** Read about user-defined functions in C++. As answer to this question keywords and/or an example are fine.
- 3. Comments:** What of this assignment was most difficult and/or most interesting? Do you have any comments about last class and/or this course?
