

DAILY ASSIGNMENT

due: Friday, October 10, 9 am

read: course-package:

- "What is Science?" from *The Many Faces of Science*
- "The Seven Warning Signs of Voodoo Science" (Use the hand-out for the first page, since it is missing in the course-package.)
- "Placebos Have Side Effects"

1. Find one or more examples for Voodoo Science which are not given in the readings. Explain why you think it is Voodoo Science instead of science.
2. Find an example for science and explain in which sense it is different from Voodoo Science.
3. As summary of *Placebos Have Side Effects* name the examples for Voodoo Science given in this text.
4. Do you have any comments about this reading and/or last class?
