

DAILY ASSIGNMENT

due: Wednesday, October 15, 9 am

Have a nice break!

read: course-package: "What Motivates Scientists?" from *The Many Faces of Science*

1. Write an about one page long paper (formal writing). Describe a situation during which you were working hard and which you nevertheless found very rewarding. Describe the kind of pleasure you experienced. (Examples: Very difficult race you trained for and then ran, Music Performance, Very difficult study or reading and/or assignment, ...)
2. Summarize of the reading what motivates scientists.
3. Choose a physicist which we discussed in class or of your project II and describe what you believe motivated your physicist to do their research.
4. What of this assignment was most interesting and/or most difficult? Any other comments?
