

Reading Assignment #23

(due: **Wednesday, October 24, 8 am**)

(my email: kvollmay@bucknell.edu)

Read: Taylor §9.1 and §9.2

1. Why are tidal waves high twice a day instead of once a day? (A qualitative answer is fine.)
2. Homework #7 (due 11:30pm) Please feel free to come to my office, in case of questions.
3. **Comments:** What of this reading did you find most difficult and what did you find most interesting? Is there a specific topic you would like to focus on, on Wednesday in class? Do you have any other comments or wishes?
