Homework Assignment due Wednesday, March 4, 9am

The final version of your first paper is in content, the same as the first version of your paper and as your main project talks: intro/background, model, references (still no results, no abstract). To revise your paper, please use all my comments on your first version of your main project paper.

Wednesday, 9am, please hand-in:

- hardcopy of final first main project paper

- hardcopy of previous version (1st version of 1st paper) with my comments

- copy pdf-version of paper in your `~/share.dir/` and give me read-permission
