

# Homework Assignment #9 (revised after class)

(Feb.16, 8am, via ~/share.dir/ )

## 1. Fractal Growth DLA (due Feb. 16, 8am)

Copy the solution program for step 3 of today's, Feb. 14, inclass work into your working directory with

```
cp ~/kvollmay/share.dir/inclass.dir/classfractal3.py .
```

Copy this program into another file, e.g. `classfractal4.py` and modify this program for step 4 of today's Feb. 14 inclass work. Put your solution program for step 4 into your `share.dir` with

```
cp classfractal4.py ~/share.dir/  
chmod a+r ~/share.dir/classfractal4.py
```

This homework is necessary so that everybody in class will be ready for the continuation of programming the DLA model and it's analysis. All this will be necessary as preparation for your miniproject I.

### Upcoming Deadlines:

- Feb. 21: final version of first main project paper due
- Feb. 23: Mini-Project I due (more explanations soon)
- Feb. 28: Flow Chart for your main project program
- Feb. 28 & March 2: Your Talks about your main project
