Homework Assignment #12
Second Version of Main Project Program due Sat, April 3, 8:00 am

Main Project Program:

We have entered the intense phase of the course during which everybody works on their program. I have not had the chance to look at everybody's program. (I am working on getting everybody detailed feedback on their main project talk.) Please keep working on your program. Do this in successive steps. Please use office hours and if needed, I can to try to add further office hours.

By Sat, April 3, 8:00 am, put your revised python-program in your `~/share.dir/` and give read permission, so

```
cp programname.py ~/share.dir/
chmod a+r ~/share.dir/programname.py
```

where `programname.py` is your python-program.

In case your 1st version program is already complete and working: you do not need to put your program again into your `~/share.dir`. I recommend that you start thinking about which "measurements" you plan to do and which analysis you are planning to do.

I wish you all fun working on your projects.

Future Main Project Due Dates:

- Apr. 6: Program 3rd Version

- Apr. 8: Results 1st Version (Figures and Interpretation)

- Apr. 13: Results 2nd Version (Figures and Interpretation)

- Apr. 20: Final Program

- Apr. 27: Results Section of Paper

- Apr. 29: Abstract
