

Homework Assignment #13

Third Version of Main Project Program due Tuesday, April 6, 12:00 pm

Main Project Program:

Meanwhile each one of you got detailed feedback on your main project talk. You are an excellent class.

I still have not had the chance to look at your programs. Please keep working on your program. Do this in successive steps. Please use office hours and if needed, I can try to add further office hours.

Start revising your program so that you can start playing with your program: that means start varying parameters and measuring several quantities. You want to aim for working on your analysis so that you will get results for your results section of the second paper.

By Tuesday, April 6, 12:00 pm, put your revised python-program in your `~/share.dir/` and give read permission, so

```
cp programname.py ~/share.dir/  
chmod a+r ~/share.dir/programname.py
```

where `programname.py` is your python-program.

I wish you all fun working on your projects.
