

# Homework Assignment #16

## Final Version of Main Project Program due Wed, April 21, 08:00 am

I have seen amazing work of you. It is so much fun working with you.

### **1. Final Version of Your Main Project Program:**

Use any feedback you have gotten from me via email and/or during office hours on your main project program and flow chart. For some of you, you will also need to continue revising and using your flow chart for finishing your program. The deadline for your final version is Wednesday, April 21, 8 am. "Final" version, means that it will be graded, but most likely many of you will continue revising your program.

As always, please feel free to come for questions. Office hours are always M 2-3:30, T 4:30-5:30, and F 10:30-12:00, for additional office hours and/or individual meetings, please get in contact with me, and I might send updates via email. You all have been diving deep into your projects and I hope that you enjoy having entered the phase of analysis and getting results.

By Wed, April 21, 8:00am, put your python-program in your `~/share.dir/` and give read permission.

### **Future:**

- April 20: Results Section of Paper. This includes Figures fulfilling requirements as discussed in April 15 inclass work, and text added to your main project paper, defining what exactly is shown on each figure (and/or listed in table(s)) and interpretation of results.
- April 29: Abstract
