

Homework Assignment #18

Abstract due Sa, May 1, 08:00 am via gradescope

Abstract: On Sa, May 1, 8am, hand in via gradescope your first version of your abstract. This is the abstract for your second paper. The second paper will include all sections of a scientific paper, that is all sections of your first paper, as well as the abstract, the results section, and the conclusions. This assignment is your “first version” of your abstract.

You find information about abstracts on our webpage in the section “Guidelines For Main Project” see the links for the bullet “Further information about scientific papers:”. And see also the description for the complete paper specific to our course (5th bullet “Paper”) which includes the Abstract description:

Abstract:

An abstract is a summary of what you did and your results. The abstract is for a reader who might not have time to read the rest of your paper or who decides depending on your abstract if she or he reads the whole paper. The abstract should be understandable without the rest of the paper and should contain: the system you study, the model, the method and the results.

Future:

- May 6: 2nd Paper first version
Use feedback on:
 - final version of 1st paper
 - 2nd Version of Figures and Interpretation
 - results section
 - abstract
- May 6 & 10 & 12: Symposium Talks
- May 18, 6:30pm (final time): Final Version of 2nd Paper
