You are invited to submit a paper for the special session on Web Technologies, including, but not limited to the following topics:

- Web Algorithms and Techniques
- Web Search Engines
- Multimedia Web
- Web Interfaces
- Web User Studies

Web Log Analysis Session
The ITNG 2007 Web Technologies Track will include a special session consisting of papers reporting studies using Web Log Analysis. Many researchers are studying logs of user behaviour on the Web. Topics of interest include, but are not limited to:

- Studies and models of user interaction developed using Web logs analysis
- Methodologies for Web data collection
- Methods for matching user behaviour to Web technologies development

PAPER SUBMISSION:
Papers should be original and contain contributions of theoretical or experimental nature, or to be unique experience reports. Interested authors should submit a 6-page summary of their original and unpublished work including 5 keywords in the IEEE format to the track chair. Electronic submissions in PDF or MS Word format are strongly encouraged.

Send papers via email to the Web Technologies Track Chair:
Dr. Amanda Spink – Queensland University of Technology
Email: ah.spink@qut.edu.au

DEADLINES:
Submission: October 16, 2006
Author Notification: December 19, 2006
Camera Ready (6 pages): January 9, 2007

EVALUATION PROCESS:
Papers will be evaluated for originality, significance, clarity, and soundness. Per ITNG policy, except for invited papers, all papers will be reviewed by at least two independent reviewers. Accepted papers will be published in the conference proceedings with an ISBN.

ITNG 2007 General Conference Chair:
Shahram Latifi, Professor
ECE Dept. UNLV
