Daily Assignment

due:  Monday, February 19, 8 am

Send your answers to the following questions back to me via email (kvollmay@bucknell.edu).

1. Finish the exercises 8 & 9. Send your final program of exercise 9 to me. As always please feel free to ask any questions.

2. Read of the paper of Chowdhury the introduction and part A of section III. What are the rules of his model? (We will program this model on Monday and will compare the results with our previous model.)

3. What was most difficult of this assignment and the last class and/or what was most interesting?
