DAILY ASSIGNMENT

announcements: We will meet on Friday, February 11, in Dana 314.
read: the copies of Gaylord and Wellin.
due: Friday noon, February 11
Hand your answers back to me either as hardcopy or via email.

1. On Friday we will start with our new topic: Cellular Automata. Ask your friends, look on
the web or in books and articles, what cellular automata are. Write a summary of what you
found in a paragraph of about five sentences. We will have a discussion in class.

2. In class we will write the program for the game of life. Start planning your program: Which
variables will you need? What is your flow diagram? Use your C-book for any syntax you will
need.

3. With what of this assignment did you have most difficulties, and/or what was most
interesting?
