**DAILY ASSIGNMENT**

Due: Wednesday, November 13, 8 am

Announcement:
- First draft of project III paper due Nov. 18
- Please give me copy of your completed registration form
- OPTIONAL: Copenhagen - Video of Play
  3-5 pm Olin 268 (Olin Auditorium, Krishna’s class) or 7-9 pm Bio 102
- *Surely You’re Joking, Mr. Feynman* reading will be due Nov. 15
  (all required but part 4 is optional)

**read:**
- “Seven Warning Signs of Voodoo Science” by Robert L. Park, to get to article
  go to http://www.bobpark.com/ then click on “Articles” and then click on
  “Seven Warning Signs of Voodoo Science”
- ERES: click on “The many faces of Science (Stevenson)” and then on
  “What is science, pp. 1-5 (Stevenson)”

Hand your answers back to me either via email (kvollmay@bucknell.edu) (please as text file, not as attached document) or as hardcopy.

1. Find an example for Voodoo Science. List your source(s) and explain its claim and why you think that it is Voodoo science instead of science.

2. Find an example for science and explain in which sense it is different from Voodoo science.

3. What of this reading did you find most interesting and/or what did you find most difficult? Do you have any comments?
