Hand your answers back to me either via email (kvollmay@bucknell.edu) (please as textfile, not as attached document) or as hardcopy. Since I would like to plan our Monday class in response to your answers, please send to me your answers as soon as possible.

1. What have you found most interesting about Curie’s life?

2. Which events do you think were most important in her life? Answer this not like the question of a biographical list of dates, but instead imagine asking Curie near the end of her life, which time periods or events were most significant to her. What do you think would she have answered?

3. Do you have any comments about this assignment or the last class?
