READING ASSIGNMENT

DUE: Friday, October 13, 11 am
READ: Townsend App. C (through to equation (C.7), App. D (through to equation (D.10)),

REVIEW: Townsend §6.8

Hand your answers back to me either via email (bvollmay@bucknell.edu) or as hardcopy.

1. Convince yourself of the second “=” in Eq. (6.67)
   Hint: Eq. (D.5) is true even if b is imaginary.

2. With what of this reading did you have most difficulty and/or what was most interesting? Any open questions?
