ECEG 201 – Homework 08

Due on 2020-03-25

For questions that require a written response (rather than numerical values) your answers should be **complete sentences**.

1. Would you prefer that I send email to you at some address other than your Bucknell email address? If so, please provide that address here.

2. Can you download lecture notes and homework files from the course web page? Please indicate whether this is easy, impossible, or somewhere between the two.

3. Can you watch videos posted to the course web page, such as this one:

www.eg.bucknell.edu/kjh016/courses/ecceg201s20/lectures/ExampleVideo.mp4

Please indicate whether this is easy, impossible, or somewhere between the two. (FWIW, I could not play the video in Firefox but I could in Chromium and VLC under Ubuntu.)

4. Can you fill in pdf forms on your computer? Please indicate whether this is easy, impossible, or somewhere between the two.

5. Can you scan handwritten pages and convert them to pdf files? Please indicate whether this is easy, impossible, or somewhere between the two.

6. Can you access the gradebook on Moodle? Please indicate whether this is easy, impossible, or somewhere between the two.

7. At this time are you aware of any physical items you would need to continue completing the ECEG 201 laboratory exercises? Do you have a temperature sensor, protoboard, Feather, and Analog Discovery 2?

8. Can you install the [Mu editor](#) on some computer that you can use for project work? (There should be a clickable link in that last sentence.) Please confirm that it works with your Feather board. Describe whether this is easy, impossible, or somewhere between the two.

9. Can you install [Waveforms](#) on some computer that you can use with your Analog Discovery? (There should be a clickable link in that last sentence.) Please confirm that it works with your Analog Discovery. Describe whether this is easy, impossible, or somewhere between the two.
