

Announcements

1. **In-class** lab exercise on Friday. **Bring your AD2.**
2. First quiz on Monday, 2020-02-03. Covers homework through Homework 3.
3. To Hand In:
 - (a) Homework 3 is due on Friday, 2020-01-31

Temperature Sensors

- **Record** your sensor number on your worksheet.
- Do not lose or damage your sensor.

We do not have an unlimited supply of these sensors. If you damage or lose your sensor there will be a one-point deduction in your course grade for each replacement.

- Do not trust the AD2 supply. Use the voltmeter to **measure** the supply voltage.
- Record all of the digits from every measurement you make.
